- resources available?
- 2 A. What you would look at is the cash position
- 3 and the line of credit position beginning,
- say, in October -- September, October of 4
- 5 the previous year and try to watch that
- 6 through this period that you're talking
- 7 about.

1

- 8 Q. Okay. And what would we have to look at in 9 order to be able to do that? Bank
- 10 statements?
- A. I believe the bank statements would tell 11
- 12 you the transactions and the position, but
- then we would also have to look at the --13
- 14 probably an inventory sheet that would show the inventory amounts as well. 15
- 16 O. Okay. Anything else we would need to look 17
- A. I can't -- you know, that's asking 18
- something I'm not completely familiar with, 19
- how to completely do that. 20
 - Q. Are there any documents related to the use
- or availability of the line of credit? 22
 - A. Well, I would imagine that would probably

Page 75

Page 76

- Q. Well, what Im trying to determine,
- 2 Mr. Lamberth, is sort of what you said.
- 3 You said at the time, you researched this.
- 4 I'm trying to find out what you researched, 5 what did you look at, what would I have to
- 6 go back and look at to verify whether what
- 7 you say you saw was, in fact, true.
- 8 A. I would say that I verified the accounts 9 payable that was being informed to me. And
- 10 some of these reports that I'm getting we
- 11 have not been able to locate as yet. So
- what I was using was basically the 12
- 13 information shared from the weekly to show
- the outstanding accounts payable, which is 14
- 15 the amount of money we owe the vendors.
- When I received a call like this, I did not 16 know that that was growing. So my research 17
- 18 would have been to look into the accounts
- 19 payable, which in March I began to see
- certain areas that concerned me. That 20
- indicated to me that the information shared 21
- 22 with me on a weekly basis was not exactly
 - the position of the accounts payable we

- 3 A. I believe that that would -- again, I'm not
- 4 completely well versed at how you would
- 5 check that, but I believe that would be the
- 6 way to do it.
 - Q. What did you look at to make your
- 8 determination that that was the cause, that
- 9 she didn't pay the vendors, and there was
- plenty of cash available? 10
- A. Well, the -- my result -- this statement 11
- results from the fact that when I was 12
- 13 made --
- The vendors contacted me. I did 14
- 15 research into this to look into it. At
- that time, I guess the information showed 16
- 17 that we had really just overspent in
- several areas, including the inventory. So 18
- 19 my issue with Ms. McCollum at that time was
- 20 the incorrect execution of it or even
- 21 sharing with us this, you know, that this
- 22 was an issue that was arising.
- 23 Am I answering the question?

owed our vendors.

- 2 O. If I were to look at or to have someone
- 3 knowledgeable to look at the accounts
- 4 payable, would I see the same things you 5
 - saw?
- A. The issue here is the weekly reporting to 6
- 7 me as her supervisor versus what was
- 8 actually in the system. I do not know --
- 9 we have not been able to produce the weekly
- 10 reports completely yet, though we've
- 11 looked. So the issue is the information
- 12 shared with me on a weekly basis versus the
 - position of the company.
 - Q. So you don't have any evidence to back that
- 15 up at this time? 16
 - MR. TRAWICK: Object to the form.
- 17 I don't think that's what he
 - testified to.
 - O. Well, I mean --
- 20 A. No. We have evidence, yes. Given time, we 21 can produce evidence.
- 22 Q. Okay. Well, what evidence do you have?
- A. The evidence will be I have some of the 23

 - Q. Ms. McCdlum also testified she believes Jerry Weisenfeld was hired to replace her. Is that correct?
- 14 A. That is not correct. Mr. Weisenfeld was 15 hired to basically - the role that he was 16 hired into was a business management role, 17 but it was a business management role that 18 would basically expand our sales base. And at that time we had considered partnering 19 20 with certain other companies on technology,

- 9 Q. Let me direct your attention to item number two. In response to Mr. Jacobs' questions, 10
- you answered questions about Amtren's 11 health insurance. Is that with Blue Cross 12
- 13 Blue Shield?
- 14 A. Yes, it is.
- 15 O. Ms. McCdlum in her deposition testified
- 16 that David Fields' error cost Amtren
- \$70,000. I believe Mr. Jacobs asked you 17 about errors made by David Fields. Did 18
- Mr. Fields' error cost Amtren \$70,000? 19

- 21 basically, it did not cause the loss of 22 that money. What it did, basically, was

- 2 Q. Who was responsible for maintaining custody 3 of the hard copies of the checking accounts that Amtren received? 4
- 5 A. Ms. McCollum.
- 6 O. Did those go missing after she was
- 7 terminated or about the time she was
- 8 terminated?
- 9 Let me strike that and rephrase that.
- 10 After Ms. McCollum was terminated, did
- Amtren attempt to find those hard copies of 11
- 12 the checking accounts?
- A. Yes. In fact, I looked for several weeks 13 14 prior to terminating Ms. McCollum to try to
- understand our position, and we could not 15
- 16 find any reconciled check statements or any
- 17 statements in any of our files. We later
- 18 requested from the bank those.
- 19 Q. In response to a question by Mr. Jacobs,
- 20 you testified about the problems and the
- 21 errors committed by Ms. McCollum regarding
- 22 Plextor. Do you recall that testimony?
- 23 A. Yes.

 - 6 issues that had been going on for
 - 7 Ms. McCollum when Ms. McCollum was handling

 - 9 Q. I believe Ms. McCollum in her deposition 10 blamed the failure to timely pay Padus on
 - 11 cash flow problems. Would you agree with
 - 12 that testimony?
 - 13 A. No.
 - 14 Q. During this period of time, did Amtren have 15 a line of credit available to the company?
 - 16 A. Let me clarify. Again, there's a series of 17 events that led to the depletion of that
 - 18 amount of money. So backing up to --
 - 19 Q. The depletion of the amount of money in
 - 20 Amtren's checking accounts?
 - 21 A. Well, the line of credit. In other words,

- 5 present when these issues with Plextor were
- discussed? 6
- 7 A. Yes.
- 8 Q. And were they discussed with her?
- 9
- 10 O. Tell me about the company name Padus,
- 11 P-A-D-U-S.
- 12 A. Padus is a critical vendor for us. y

- 14 imbedded portion of our product. They have
- 15 been a major part of our company since the
- 16 beginning. We selected -- their software
- 17 and the software they generate that's
- 18 inside our software has provided tremendous
- 19 benefits because of the technology.
- 20 Q. I believe Ms. McCollum testified in her
- 21 deposition that it was her responsibility
- 22 to insure that Padus was timely paid. Is
- 23 that correct?

- 1 maybe at the end of 2004, our line of
 - 2 credit was -- in fact, I don't think we had
 - 3 much money borrowed on our line of credit,
 - and we had sufficient cash. During the 4
 - 5 periods of November, December, January,
 - February, March -- December of '04 and 6
 - 7 January, February, March '05, the moneys
 - 8 were basically expended and our line of
 - 9 credit was drawn on maximum. In fact, upon
 - 10 Ms. McCollum's departure, I had to seek
 - 11 immediate - an immediate loan of \$200,000
 - 12 to pay down the vendors that had been aged
 - 13 out, you know, aged out meaning that had
 - 14 been -- that hadn't been paid. I'm not
 - 15 sure of the exact amount. I believe it was
 - 16 about 200,000, because the credit -- they

 - 17 were basically one by one threatening to 18
 - cut off our credit.
 - 19 Q. Is it correct that Padus is an important
 - 20 vendor that Amtren buys things from? 21 A. The loss of the license from Padus would
 - 22 shut us down because what we would have to
 - do is -- there's no quick way to engineer
